

PROPOLIS THROAT SPRAY

MINT FLAVOR

Description

Propolis mint flavor presents in its composition natural ingredients such as wild honey and propolis extract and is also enriched with vitamins B9, B12 and the mineral selenium. The propolis extract used is standardized in compounds phenolics, the main bioactive substance of propolis. Due to the characteristic flavor of the propolis extract, the product was developed with a natural aroma of ginger and pomegranate, aiming facilitate your daily consumption.
