**BUILDING  
HEALTH  
PRODUCTS**

## **OUR HISTORY**

The story began 19 years ago, when at the Costa family residence a dream began to be realized. With a lot of faith and entrepreneurship, the manufacture and sale of honey and derivatives began, Apisnutri was born.

Since then, daily challenges and achievements have boosted the company's growth, building a legacy of determination and love for what is done.

Today, with over 300 products in line, between own brand and outsourced products, Apisnutri innovates every day bringing trends and cultivating the best nature, promoting health and well-being.

Obstacles will come, and will surely serve us to boost us to an increasingly bold and fulfilling future.

And we would like to invite you, client and partner, come with us on this journey, because together we are stronger and we will get even further!
